About Me

Hello I'm Shamiun Shadid, a full-stack web app developer with more than 5 years of experience. I design and develop effective web applications. I'm passionate about crafting elegant and efficient web applications. My expertise lies in both front-end and back-end development, allowing me to deliver comprehensive solutions.

Skills

- Html, Css, JavaScript
- Frontend- React, Next.js, TailwindCss
- Backend- Node.js, Express.js
- Database- MongoDB
- Strategy planning & execution of the strategies
- Strong communication and team collaboration skills

Education

Full Stack Web Development Bootcamp 2022-2023
CWH Course

I successfully completed a comprehensive full-stack web development program offered by CWH. This training equipped me with a strong foundation in front-end technologies like HTML, CSS, JavaScript, React and Next.js along with back-end skills like Node.js and Express. I gained practical experience in building dynamic web applications, databases, and APIs.

Higher Secondary Certificate 2021 - 2023
Dr. Abdur Rajjak Municipal College

I completed my Higher Secondary Certificate (HSC) in Science, achieving excellent results and further honing my academic skills. With a strong foundation in it I developed critical thinking, problem-solving, and analytical abilities that will guide me in my future academic and career pursuits

Experience

Full Stack Web Developer 2024 - Present
Syntactics Inc. | Australia

I am currently working as a Full-Stack Web Developer at Syntactics Inc. where I contribute to the development and maintenance of dynamic web applications. My responsibilities include implementing user interfaces, developing robust back-end systems, and ensuring the overall quality and performance of our web applications.

Frontend Developer 2022 - 2024
Freelancing

From 2022 to 2024, I successfully operated as a freelance frontend developer. During this period, I provided custom web development services to clients, focusing on creating user-friendly interfaces. My work encompassed a range of projects, including building responsive websites, developing interactive web applications, and implementing front-end libraries such as React.

Backend Developer 2023 - 2024
webdew

I previously served as a Backend Developer at Webdew, where I played a crucial role in developing and maintaining robust server-side applications. My responsibilities included designing and implementing APIs, managing databases, and ensuring the overall stability and performance of backend systems.
